PROFESSIONAL SUMMARY

Computer Science Engineering graduate with a strong foundation in **Java, Python, Full-Stack Development, Machine Learning, and Data Analytics**. Experienced in developing responsive web applications, backend services, AI-based solutions, interactive dashboards, and data-driven applications using technologies such as **React.js, Flask, MySQL, Streamlit, SAP Analytics Cloud, and Power BI**. Skilled in software development, database management, data visualization, API integration, and problem-solving through internships and academic projects. Certified in **Java, Python, and Data Visualization**, with a passion for building scalable and user-focused software solutions.

SKILLS

- **Programming:** Java, Python, C++, JavaScript, SQL, HTML5, CSS3, R
- **Web Development:** React.js, Flask, PHP, Bootstrap, REST API, Responsive Web Design
- **Database:** MySQL, SQL Queries, Database Design, CRUD Operations
- **AI & Machine Learning:** Machine Learning, Random Forest, Data Preprocessing, Model Evaluation, NLP, LLM Basics
- **Data Analytics & Visualization:** Streamlit, Power BI, SAP Analytics Cloud, IBM Watson Studio, Pandas, NumPy, Data Visualization
- **Tools & Technologies:** Git, GitHub, Jenkins, Jupyter Notebook, VS Code, Postman
- **Concepts:** OOP, SDLC, Software Engineering, System Design, API Integration
- **Soft Skills:** Problem Solving, Teamwork, Communication, Leadership, Time Management

INTERNSHIP EXPERIENCE

Virtual Intern – AI & Data Analysis

EduNet Foundation (AICTE & VOIS Program) | Remote | Sep 2025 – Oct 2025

Worked on Conversational Data Analysis with LLMs, gaining hands-on exposure to AI workflows, data analysis, and AI-powered solutions. Enhanced skills in Python, problem-solving, and developing technology solutions in a remote collaborative environment.

Virtual Intern – Frontend Web Development

EduNet Foundation (AICTE) | Remote | Aug 2025 – Sep 2025

Developed responsive web interfaces using HTML, CSS, and JavaScript during a remote internship program. Applied frontend development concepts, UI design practices, and interactive web features through project-based learning.

Web Development Intern

CodeBind Technologies | Coimbatore | July 2024 – Aug 2024

Developed responsive web applications using HTML, CSS, JavaScript, PHP, and MySQL. Gained practical exposure to frontend development, backend integration, database management, and software development workflows through an offline industry internship.

EDUCATION

Bachelor of Engineering (B.E.) - Computer Science and Engineering Hindusthan College of Engineering and Technology, Coimbatore	Graduated: Apr 2026 CGPA: 8.56 / 10
HSC Mount St. Joseph Matric. Hr. Sec. School, Tiruvannamalai	Year: 2022 Percentage: 85%
SSLC Mount St. Joseph Matric. Hr. Sec. School, Tiruvannamalai	Year: 2020 Percentage: 92%

PROJECTS

AI-Driven Knowledge and Alerting System for Public Health Communication

Built an AI-based healthcare chatbot system using **Python, ML, NLP, and Flask** for symptom analysis, disease prediction, health recommendations, and public health alerts. Integrated data processing and intelligent response generation to support early health awareness

Visualizing and Predicting Heart Diseases with an Interactive Dashboard

Built a **Streamlit-based ML dashboard** using Python to visualize health trends and predict heart disease risk using a Random Forest model. Added interactive analytics, data preprocessing, and prediction features to provide real-time healthcare insights.

Hospital Requirement Analyzer and Complaints Resolver

Built a **Flask-based hospital management application** for managing equipment requests and complaints. Integrated MySQL database, user authentication, request tracking, and admin dashboard features to improve hospital workflow efficiency.

Online Tourism Website

Built a responsive tourism platform using **HTML, CSS, JavaScript, and PHP** with interactive UI components, destination search, and basic booking/e-commerce functionality. Improved user experience by developing dynamic pages and efficient web navigation.

ACHIEVEMENTS & LEADERSHIP

- Presented and published a technical paper on **AI-based healthcare applications** at a project conference.
- Completed **NPTEL certification in Virtual Reality** and **MATLAB certification**.
- Secured **2nd Place** in the **Top Coders technical event** with a team member, demonstrating programming and problem-solving skills.
- Worked as **Project Coordinator** and **Class Representative**, supporting teamwork and communication.

CERTIFICATIONS

- Data Analyst** – SAP Analytics Cloud | **Power BI** – ICT Academy
- Java Fundamentals** – IBM | **Python Programming** – IBM
- Data Visualization** – IBM | **DevOps** – IBM
- Predictive Modelling** – IBM
