PROFESSIONAL SUMMARY

Computer Science Engineering student with a strong foundation in **Java, Python, and full-stack development**, experienced in building web applications, dashboards, and automation tools. Skilled in **problem-solving, data handling, and system design**, with hands-on experience through academic projects and internships. Certified in **Java, Python, and Data Visualization**, and passionate about creating efficient, user-friendly software solutions while continuously learning and improving.

INTERNSHIP EXPERIENCE

Web Development Intern

CodeBind Technologies|July 2024

- Developed and maintained web applications using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed responsive user interfaces and implemented robust backend logic for database connectivity.
- Collaborated with a team to deliver user-friendly, efficient web solutions.

SKILLS

Programming: Java, Python, C++, SQL, HTML, CSS, JavaScript

Frameworks & Tools: Flask, Streamlit, Jenkins, GitHub, IBM Watson Studio, Power BI, Jupyter Notebook, VS Code

Concepts: Software Engineering, Cloud & AI Basics, Data Visualization, System Integration

Soft Skills: Problem-Solving, Teamwork, Communication, Time Management, Project Leadership

EDUCATION

Bachelor's of Engineering, Computer Science and Engineering
Hindusthan College of Engineering and Technology, Coimbatore

Expected: May 2026
CGPA: 8.6 / 10

HSC

Mount St. Joseph Matric. Hr. Sec. School, Tiruvannamalai

Year:2022

Percentage:85%

SSLC

Mount St. Joseph Matric. Hr. Sec. School, Tiruvannamalai

Year:2020

Percentage:92%

PROJECTS

Visualizing and Predicting Heart Diseases with an Interactive Dashboard

- Built an interactive Python and Streamlit dashboard to visualize heart disease trends and predict risk using machine learning (Random Forest).
- Delivered real-time health risk predictions and data visualizations to support healthcare decisions.

Hospital Requirement Analyzer and Complaints Resolver

- Designed a mini-project with HTML, CSS, and Python Flask to streamline healthcare equipment requests and complaint tracking.
- Enabled efficient management of hospital needs, improving communication and operational efficiency.

AURA Language learning app

- Developed a Java-based terminal app introducing vocabulary in Japanese, French, and Spanish.
- Incorporated interactive user input and clear translation features for effective language learning.

Online Tourism Website

- Built a responsive tourism website using HTML, CSS, JavaScript, and PHP.
- Implemented search features and interactive UI for enhanced browsing experience, including basic e-commerce functionality.

CERTIFICATIONS

- Power BI Data Analyst, Microsoft
- Digital Marketing Workshop, CodeBind Technologies
- Java Fundamentals, IBM
- Python Programming, IBM
- Data Visualization, IBM
- Matlab Course, HICET

EXTRACURRICULAR ACTIVITIES

- Student Coordinator, Matlab Course
- Class Representative (Short term)

LANGUAGES

English (Fluent)
Tamil (Native)
